

# Our Products

High-Purity Lead Products | Quality-Tested | Bulk Industrial Supply

## What We Sell

HIGH PURITY LEAD PRODUCTS | QUALITY TESTED | BULK INDUSTRIAL SUPPLY

At Power Pack Industries, we supply a wide range of recycled and traded non-ferrous metal products, processed and sourced through compliant, quality-driven operations. Our products meet the requirements of battery manufacturers, metal processors, alloy producers, and other industrial consumers across India.

## Our Lead Product Range

We supply high-quality lead products for industrial usage with a focus on purity, consistency and compliance-driven manufacturing. Our products are trusted by battery manufacturers, lead alloy units, lead oxide units and multiple metal processing industries.

**Lead Ingots 98.5% (Remelted / RML)**

High-quality remelted lead ingots with consistent purity suitable for general industrial and alloying applications.

[Request Quote](#)

**Refined Lead Ingots 99.97% (Pure)**

High-purity refined lead suitable for battery manufacturing and specialised industrial requirements.

[Request Pricing](#)

**Antimonial Lead**

Lead alloy containing antimony, used to improve hardness and durability in industrial products.

[Enquire Now](#)

**Lead Granules**

Uniform lead granules manufactured for controlled and precision-based industrial applications.

[Get Quote](#)

**Value-Added Lead Output**

Custom lead ingots and lead granules produced to meet specific purity, grade, and size requirements

[Request Custom Requirement](#)

## Other Product Range

**Plastic Chips (PPCP)**

Recycled battery plastic processed into chips for reuse within the recycling ecosystem

[Get Quote](#)

**Custom White Metal Ingots**

We provide customized white metals Ingots for allowing applications and efficient industrial reuse

[Get Quote](#)

**EPR Credits**

We offer verified EPR credits through authorised lead-acid battery recycling, helping producers and manufacturers fulfill statutory EPR obligations.

## Quality Output That Builds Long-Term Trust

- Consistent purity across every batch
- Certified, safe & compliant processing
- Industrial-grade packaging & dispatch support
- Reliable long term supply partnerships
